

AUTOMOBILE WASTE

Automotive wastes can be very harmful to the environment when improperly disposed. Illegal dumping leads to contamination of our drinking water supply. There are several options locally for safe and legal disposal of various automotive wastes. These locations are identified below with accepted wastes listed for each.

A = Antifreeze	F = Oil Filters	R = Radiators
B = Batteries	O = Used Oil	T = Tires
TF = Transmission Fluid

IF YOU'RE NOT BUYING YOU'RE NOT RECYCLING

Recycling is a THREE-STEP process. We must include all segments in order to succeed.

1

Collect your recyclables and take them to the nearest collection facility or put them out for curbside collection. Processors clean and prepare the recycled material for use by manufacturers.

2

Manufacturers make new products from the collected materials.

3

Consumers purchase recycled content products and, if suitable, put them back into recycling collection programs.

Look for the arrows...

They mean the product is either recycled (solid arrows) or recyclable (hollow arrows).

Don't let a good thing go to waste

Reduce, Reuse, Recycle

Instead of throwing away items we no longer need, we can make sure they find their way to the next stage in their life cycle. At home, at school, at the office, or anywhere, we can **REDUCE** the amount of waste we produce; **REUSE** an item or find someone who can use it; or **RECYCLE** products, so that our valuable natural resources are used again and again.

REUSE - Donate Used Items

Donations of clothing, furniture and varying household items are accepted at the facilities listed below. Household items could include, but are not limited to, books, magazines, tools, toys, sports equipment, computers, copiers, printers, typewriters, records, cassettes, CD's, VHS tapes or DVD's. Food donations can be made to the Brazos Food Bank or the Salvation Army. Please call merchants in advance to verify acceptance. Some locations purchase used materials.
